Color Settings

For more information on color settings, search for "setting up color management" in Help. This term is searchable from any Creative Suite application.

Settings: North America General Purpose 2

Working Spaces

RGB: sRGB IEC61966-2.1

CMYK: U.S. Web Coated (SWOP) v2

Gray: Dot Gain 20%

Spot: Dot Gain 20%

Color Management Policies

RGB: Preserve Embedded Profi...

CMYK: Preserve Embedded Profi...

Gray: Preserve Embedded Profi...

Profile Mismatches: ☐ Ask When Opening ☐ Ask When Pasting

Missing Profiles: ☐ Ask When Opening

Description

Working Spaces: The working space specifies the working color profile for each color model. (A color profile defines how a color's numeric values map to its visual appearance.) The working space is used for documents that are not color-managed, and for newly created documents that are color-managed.
